Vandein Corporation's Managing Director, Hades Vandein.
The original researcher of the Eclipse Virus..
That and I'd really rather not show these in front of other people.

Even a non-combatant like me can tell...
He wields an absolute power.
Might I get you to say that these were objects brought in by you people as well?
I wasn't stupid enough to think him a powerless egghead, but this is honestly beyond my expectations.
And the man who turned thugs into infected, giving rise to many sacrifices in the search for those "compatible."

Record 28「Get away（II）」

Intruder Alert.
There are three intruders in the holding cell of Hades Vandein.
And they are engaging in hostilities.
Raise the barrier and get clerical staff to the emergency shelter.
Special Duty Section Six members will be heading there to suppress them!

Seems that way.
This is bad, Curren. The Special Duty guys are coming
"Briar Rose."
But I've made preparations to stop them in their tracks.
!?

!
This is...!

An uncommon ability. I'd definitely like a sample of it.
An isolation ability, huh? Looks like it has a built-in magic seal too.
I only have one thing I want to hear from you.
I have no intention of engaging in excess chatter
The "Progenitor" that gave birth to the Eclipse Virus. Where is it?
The "Seed of Origin"...

You know, don't you?
Because you do, you were able to get closer to the Eclipse and thought you could make the power your own.
I haven't the slightest idea what you're talking about. Spouting all that nonsense.
I'm sure you plan to repeat it ad nauseum, but

I'm just a simple, virtuous citizen after all.

ヒュッ!!

...That hurts, you know
Infection abilities!? But if it's just hard...
But thank you.
Now it'll be easier to claim justifiable self-defense.

BRIAR ROSE!
Hm...!?

Snow
White!

ONE MORE, BRIAR ROSE!!
SONICA!
I'M ON IT~!

SONICA!
Eh?

My, my. Justifiable self-defense against real infected opponents isn't very easy, is it?
You wouldn't mind if I ramp it up to excessive self-defense, would you?
And I'd really like to get a few more of these precious samples too...
There's no way! He took that attack with barely any damage at all?
And just now, that was...

OOOOOOH!

ギリ
ギリ
ヒッ

Tch...!
Curren! He really is...!
Yeah
Hmm, this isn't half bad.

An absurd level of body strength, and an enormous amount of power
An imitator.. That's not what he is at all.
There's no doubt about it. That's the power of the "Seed of Origin!"
Now that it's come to this... I want it more and more!

The room has been surrounded.
To the intruders!
So she says.
Drop your weapons, release Mr. Vandein, and surrender.
I'm just relieved we could leave it safely at justifiable self-defense.
The way out is that way.
As usual, that little lady from the Special Duties lacks common graces.
Damn! And after I was all fired up and ready to go too.

Oh, I just came up with a great idea for you guys.
I don't really want to get into hostilities with the ladies from the Special Duty Section after all.
Meh, let's start over
You okay with this, Curren?
Might I get you to gather up the little Driver kid?
So you're saying for us to ignore your little attack on us just now, eh? You've got some guts.
If you could provide him to me, I'd be plenty grateful. ...I might even give you some information on the "Seed."

Thanks, but no thanks. We won't be handing over the Zero to you, and I'll be fine with dragging information about the seed from your body.
So there's nothing in it for us.
Don't I? I get told that a lot.
Then, instead of a request, shall I make it an order?
It wouldn't be unheard of for me to accidentally crush that fragile looking person over there during my self-defense, now would it?

THAT'S FAR ENOUGH!
!?

Our shooting squad is equipped with Anti-EC Kill Rounds... If you're hit, it won't end well for you.
Nobody move!
So the Huckebein were the ones that came after all?
I've heard the sounds of those gunshots before... I'm sure of it.
Please surrender quietly!
We have surveillance in the air and units on standby on the ground.

Aah, you saved me~!
...Mr. Vandain, come this way!
Curren Huckebein and associates, according to interdimensional law, I am placing you under..
I'm Enforcer Fate T. Harlaown of Special Duty Section Six.
The situation being what it is, please understand.
But if you could just release this too, I'd appreciate it.
You're not arresting us.

And to tell the truth, I agree with you.
"A Pool's errand" and "working for free," right?
CURREN! YOU KNOW THE THINGS I HATE, DON'T YOU?
In that case, we will execute an arrest using force.
